

Project: Meta Call Ad Campaign

GoFix Appliances: Lead Generation Through Call Ads

Bengaluru, India | 26 Sep – 1 Oct 2026 | Facebook & Instagram

Campaign Approach

- Promoted GoFix Appliances, a home and commercial appliance repair service (AC, fridge, washing machine, TV) in Bengaluru.
- Goal: drive phone calls directly from the ad, since repair is an urgent, high-intent need. Campaign objective: Leads, conversion location: Calls, performance goal: maximise number of calls.
- Built three ad sets, each speaking to a different audience: general households, business owners (restaurants, hotels, property) and job-profile/family segments.
- Ads use a clear "Call now" button, a Bengaluru-specific headline and creatives in feed (1:1) and Stories/Reels (9:16) formats.
- The test: which audience and message produces calls at the lowest cost.

Target Persona

Primary persona: Household Ravi | Secondary: Business owner Meera (restaurant, hotel or property manager)

Background & Demographics	Needs	Barriers
• Age 28–55, lives in Bengaluru • Family home with AC, fridge, washing machine, TV • Busy working schedule • Mobile-first, uses Facebook & Instagram	• Fast, reliable repair at the doorstep • Genuine spare parts, skilled technicians • Clear, affordable pricing • Easy way to book: one tap to call	• Unsure which repairer to trust • Appliance breakdown is urgent • Many local competitors • Does not want long forms or waiting
Hobbies & Interests	Goals	Secondary: Business owner Meera
• Family time, home improvement • Consumer electronics, home appliances • Online shopping	• Get the appliance fixed the same day • Keep home comfortable (cooling, fresh food, entertainment)	• Runs a restaurant, hotel or property • Needs minimal downtime for commercial equipment • Wants a dependable repair partner

Persona is inferred from the ad set targeting and creative messaging.

Marketing Objective

Generate phone-call leads for GoFix Appliances in Bengaluru from 26 Sep to 1 Oct 2026, at the lowest possible cost per call.

- Campaign objective: Leads | Conversion location: Calls
- Performance goal: Maximise number of calls
- Ad set daily budget: ₹300 (max ₹525/day, ₹2,100/week)

KPI

Number of calls placed from the ad (leads), measured with Cost per call placed.

- Primary KPI: Calls placed
- Efficiency metric: Cost per call placed (₹)
- Budget tracking: Amount spent (₹)

Targeting Setup

Audience settings used in the ad sets

Ad Summary

Ad copy and creative

Headline

Expert Appliance Repair in Bengaluru

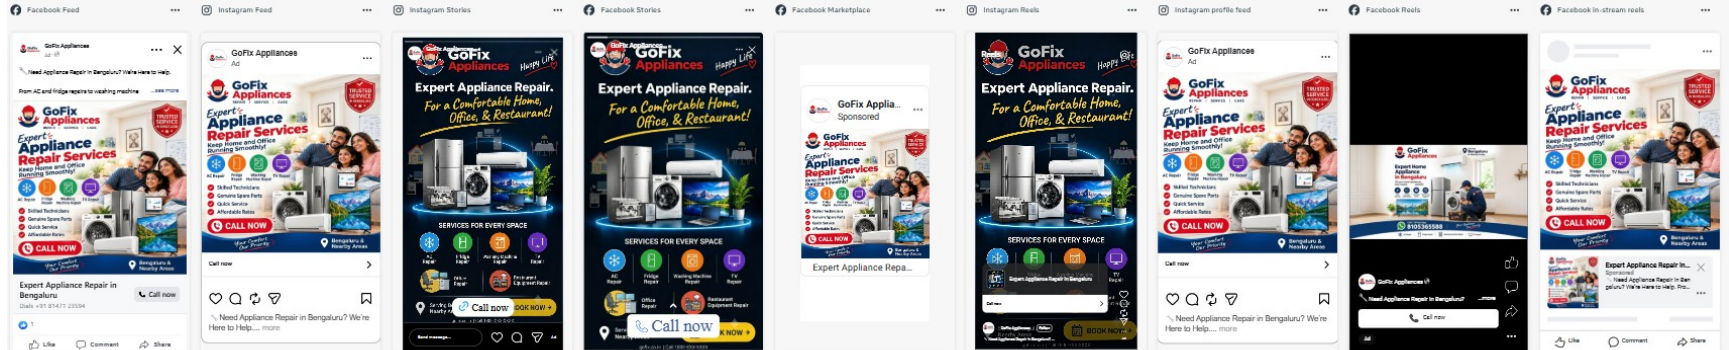

Call description

AC, Fridge, Washing Machine & TV Repair. Call GoFix Appliances Today.

CTA & Destination

"Call now" button dialling +91 81471 23594

Primary text highlights skilled technicians, genuine spare parts, quick service, doorstep repair and coverage across Bengaluru and nearby areas, ending with "Tap Call Now to speak with GoFix Appliances."

Key Results

Gofix creative Ad | Call ad (26 Sep – 1 Oct 2026)

32

Calls placed

₹42.37

Cost per call placed

₹1,355.91

Amount spent

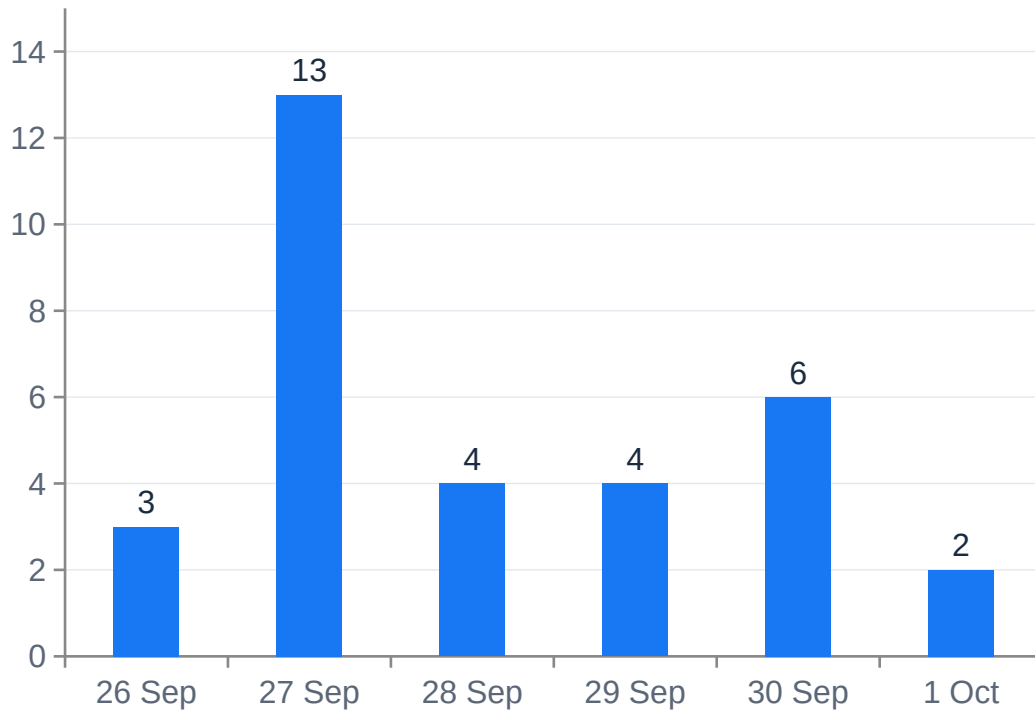

5.3

Avg. calls per day

Calls placed ÷ Amount spent: ₹1,355.91 ÷ 32 = ₹42.37 per call. Figures are for the single ad shown in the performance report; the other two ads/ad sets can be added the same way.

Performance by Day

Calls placed per day (read from the Meta daily chart; totals 32)

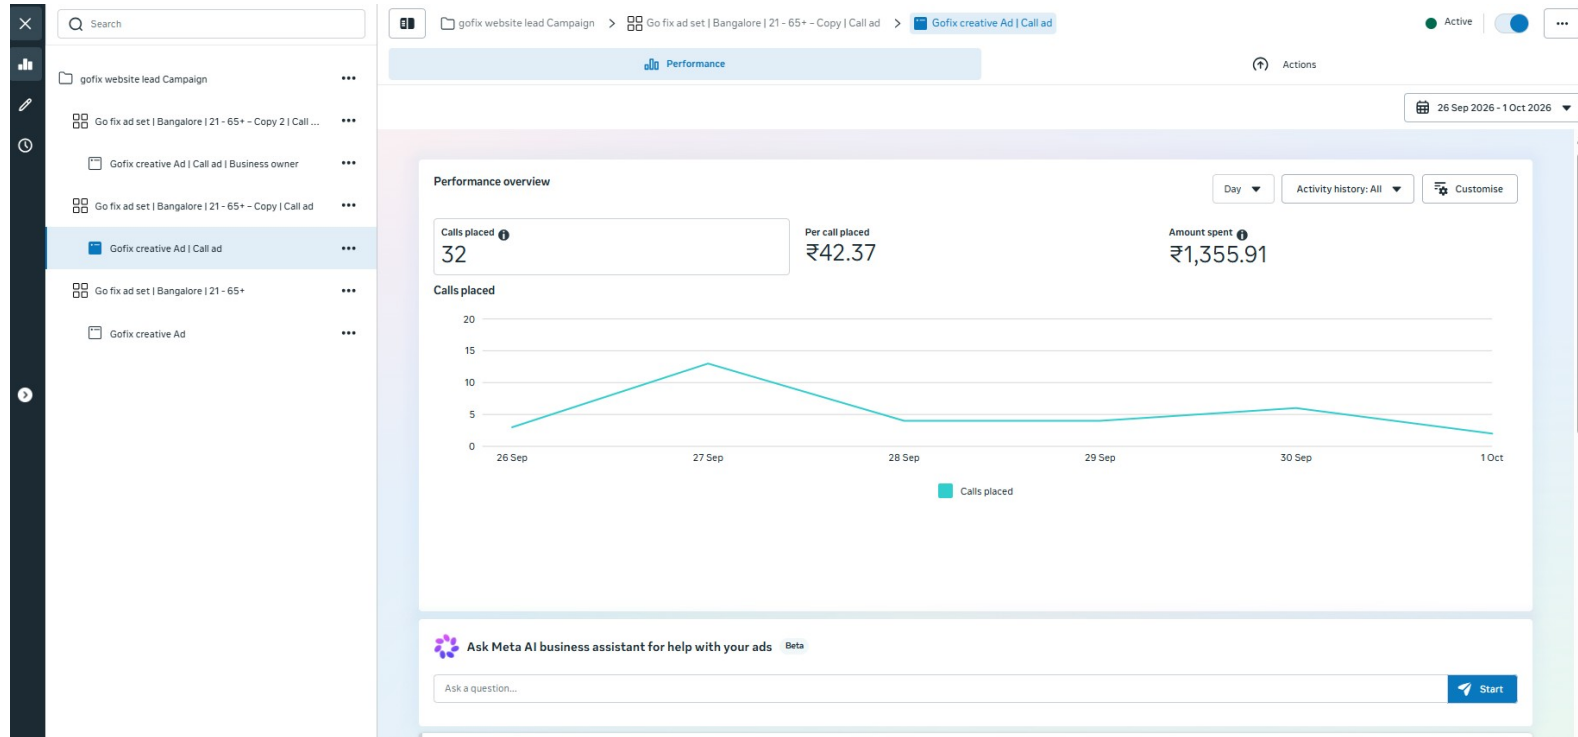

- 27 Sep was the peak with 13 calls, 41% of the total.
- The first two days delivered 16 calls (50%).
- 28 Sep – 1 Oct averaged 4 calls/day, a steady but lower level.
- 1 Oct is a partial day (data pulled the same day).

Campaign Evaluation

- The ad generated 32 calls for ₹1,355.91, at ₹42.37 per call.
- Delivery was front-loaded: launch day activity on 27 Sep produced 13 calls, then volume settled at 4–6 per day. This is typical of the learning phase and early audience freshness.
- Consistent daily calls (2–6) after the peak show the offer and "Call now" CTA keep working, but cost per call is only worthwhile if the average repair job value comfortably exceeds ₹42.37 plus the share of calls that do not convert to jobs.
- Meta rates the campaign Opportunity Score 4 (room to improve), and suggests Advantage+ creative enhancements for all 3 ads.
- Gap: call quality (answered, booked, completed) is not measured by Meta, so the true cost per booked job is unknown.
